THE PACIFIC TELEPHONE and TELEGRAPH COMPANY

SUGGESTIONS FOR INCREASING THE EFFICIENCY OF OUR LONG DISTANCE FACILITIES:

1. Place long distance calls only when absolutely necessary and avoid placing calls during the busy hours—9 to 11 A.M. and 4 to 5 P.M. Long distance calls should be placed on a station basis.
2. Keep conversations brief.
3. Remain on the line when placing toll calls.
4. If a delay is encountered at the distant telephone, identify the call as a long distance call by giving your name and the calling point.

STATION CALLS HANDLED BY LOCAL OPERATOR

Station calls from GArfield 1-9000 extensions to the following points should be placed by number with the local operator (reached by dialing "7"):

CONFERENCE SERVICE

PBX conference service is available on GArfield 1-9000 and GLencourt 1-9000 official PBXs.

PBX conference connections may include extension numbers and any telephone numbers reached by long distance, "A" board, interzone or zone channels, subject to the capacity of the conference equipment as follows:

GArfield 1-9000 official PBX—12 lines, 3 of which may have "Outside" telephone numbers.

GLencourt 1-9000 official PBX—6 lines, 2 of which may have "Outside" telephone numbers.

To obtain PBX conference service, dial "Operator" and give details of the call to the PBX attendant.

If no extensions other than your own at your PBX are involved in a conference connection including out-of-town points the call should be placed with Long Distance and not with the PBX attendant. In such cases dial "8" and place your request for conference service with the Long Distance operator.

FOR THOSE SUBJECT TO CALL

Employees subject to call at home should notify the appropriate P.B.X. Chief Operator if they are to be reached at another telephone.

Extension numbers on which official visitors to company offices may be reached should be reported to the appropriate P.B.X. Chief Operator.

OFFICIAL TELEGRAMS

Our Company operates a private line official teletypewriter service between San Francisco, Los Angeles, Portland, Seattle and Long Lines points and a TWX service to the other Associated Companies through the Official Message Center, Room 226 at 140 New Montgomery Street, San Francisco.

The purpose of this service is to provide for all official communications thereby clearing the commercial toll telephone and TWX facilities for the use of our customers. The official service should be used by all employees for Company business when the mails are inadequate because of the time requirements.

Official telegrams should be typed or written legibly on plain paper with the heading "OFFICIAL TELEGRAM", and should bear the sender's extension number and departmental expense code.

Between 8:00 a.m. and 5:30 p.m. Monday to Friday, inclusive, telegrams originating in San Francisco should be delivered by company mail or messenger to the San Francisco Message Center. If originated in the "140" building, they should be enclosed in a red envelope, Form S-3000-CA, and deposited in the mail chute, where collections and deliveries are made at fifteen-minute intervals.

At all other times telegrams should be telephoned to Pacific Telegraph, DOuglas 2-9000, or sent by messenger to the Pacific Telegraph office at 333 Grant Avenue. When telephoned, telegrams should be designated as "official company business". They should be followed on the next business day by a confirming copy, so marked, exactly as telephoned, and bearing the sender's extension number and departmental expense code.

From East Bay company stations, official telegrams may be telephoned by calling TEmplebar 2-9000.

NOTE:—Telegrams of a personal nature are not accepted for transmission as official company business,

CALLS TO BUSINESS OFFICES

If you wish to secure information from the business office regarding a service order or account (or to place an order on existing service) on which the telephone number is known, ask the attendant at the P.B.X. serving the business office involved, for the service representative handling the particular account; for example, "Please give me the service representative handling DOuglas 2-5997".

If no telephone number is involved or to place an order for new service, give the P.B.X. attendant the name and address involved and she will connect you with the proper service representative.

DIRECTORY LISTINGS

Unless otherwise indicated, the extension number shown in this directory is that of a station connected with the GArfield 1-9000 P.B.X. The address of employees in the 140 New Montgomery Building is designated by room number only. The address of employees in the 1587 Franklin Building is designated by room number followed by the code (61). In all other instances, street addresses are used. Directory changes, additions or deletions, should be reported immediately to the department employee responsible for preparing such information in order that this directory and the P.B.X. operators' records may be kept up to date. Forms FM 1042 for use by the department representative may be obtained from the Traffic Office Manager, GArfield 1-9000 extension 3136.

Our Telephone Manners

As telephone employees we are interested in providing good telephone service to the public. We also want to set a good example for others in proper use of our own service. Here are the important rules:

1. When your telephone rings, answer promptly.
2. Identify yourself right away in a pleasant, interested tone like this: "Jones speaking" or "Miss Jones speaking" — in answering someone else's telephone, "Mr. Smith's office, Miss Jones speaking."
3. Speak directly into the mouthpiece.
4. If you can't handle the call, explain that you are going to transfer the call. Then be sure you turn the call over to the **PROPER PERSON.** If you aren't sure who the proper person is, get the number of the calling party and arrange a call-back.
5. Keep pad and pencil handy. Jot down telephone messages immediately and accurately.
6. When calling, be sure to use the correct number. Use the latest directory.
7. If you get a wrong number, excuse yourself before hanging up.
